### **The Town Greenville, with the support from the East Central Wisconsin Regional Planning Commission, have begun to update their 5-year Comprehensive Outdoor Recreation Plan (CORP), 2015-2019.**

Beginning in November 2014, Greenville kicked off an 8-9 month planning process to complete the update to the CORP. This process will include a comprehensive examination of the park and recreation facilities while identifying recommendations for improving the system and its services over the next five years and beyond.

In addition to, public input opportunities have been made available throughout the planning process and mechanisms for public involvement identified. One of those mechanisms was a survey of the parks and recreation facilities offered over the summer, the second is this open house to involve residents in the needs assessment, and finally the third will be a public hearing held prior to the formal adoption of the plan which is anticipated for the summer of 2015.

**We invite you to express your opinions and ideas on what is needed in terms of Parks and Recreation for Greenville. Please join us for this important meeting.**
